Contents

1	Amikacine	3
1.1	Amikacine, <i>A. baumannii</i>	3
1.2	Amikacine, <i>P. aeruginosa</i>	4
2	Ampicilline	5
2.1	Ampicilline, <i>E. faecalis</i>	5
2.2	Ampicilline, <i>E. faecium</i>	6
3	Cefepime	7
3.1	Cefepime, <i>P. aeruginosa</i>	7
4	Ceftazidime	8
4.1	Ceftazidime, <i>P. aeruginosa</i>	8
5	Ciprofloxacin	9
5.1	Ciprofloxacin, <i>A. baumannii</i>	9
5.2	Ciprofloxacin, <i>P. aeruginosa</i>	10
6	Gentamicin	11
6.1	Gentamicin, <i>A. baumannii</i>	11
6.2	Gentamicin, <i>E. faecalis</i>	12
6.3	Gentamicin, <i>E. faecium</i>	13
6.4	Gentamicin, <i>P. aeruginosa</i>	14
7	Imipenem	15
7.1	Imipenem, <i>A. baumannii</i>	15
7.2	Imipenem, <i>P. aeruginosa</i>	16
8	Levofloxacin	17
8.1	Levofloxacin, <i>A. baumannii</i>	17
8.2	Levofloxacin, <i>P. aeruginosa</i>	18
9	Meropenem	19
9.1	Meropenem, <i>A. baumannii</i>	19
9.2	Meropenem, <i>P. aeruginosa</i>	20
10	Norfloxacin	21
10.1	Norfloxacin, <i>E. faecalis</i>	21
10.2	Norfloxacin, <i>E. faecium</i>	22
11	Piperacillin/Tazobactam	23
11.1	Piperacillin/Tazobactam, <i>P. aeruginosa</i>	23

12 Tobramycine	24
12.1 Tobramycine, <i>A. baumannii</i>	24
12.2 Tobramycine, <i>P. aeruginosa</i>	25
13 Vancomycine	26
13.1 Vancomycine, <i>E. faecalis</i>	26
13.2 Vancomycine, <i>E. faecium</i>	27
14 Auxiliary figure for Tab. 2 (main text)	28

1 Amikacine

1.1 Amikacine, *A. baumannii*

phenotype	n
Aminoglycoside-non-wild-type	34
wild-type	124

Caption or footnote for Amikacine / *A. baumannii*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

1.2 Amikacine, *P. aeruginosa*

phenotype	n
Aminoglycoside-non-wild-type	30
wild-type	265

Caption or footnote for Amikacine / *P. aeruginosa*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

2 Ampicilline

2.1 Ampicilline, *E. faecalis*

phenotype	n
beta-Lactamase-non-wild-type	4
wild-type	133

Caption or footnote for Ampicilline / *E. faecalis*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

2.2 Ampicilline, *E. faecium*

phenotype	n
beta-Lactamase-non-wild-type	210
wild-type	17

Caption or footnote for Ampicilline / *E. faecium*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

3 Cefepime

3.1 Cefepime, *P. aeruginosa*

phenotype	n
beta-Lactamase-non-wild-type	41
wild-type	254

Caption or footnote for Cefepime / P. aeruginosa, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

4 Ceftazidime

4.1 Ceftazidime, *P. aeruginosa*

phenotype	n
beta-Lactamase-non-wild-type	47
wild-type	248

Caption or footnote for Ceftazidime / *P. aeruginosa*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

5 Ciprofloxacin

5.1 Ciprofloxacin, *A. baumannii*

phenotype	n
Quinolone-non-wild-type	38
wild-type	120

Caption or footnote for Ciprofloxacin / *A. baumannii*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

5.2 Ciprofloxacin, *P. aeruginosa*

phenotype	n
Quinolone-non-wild-type	93
wild-type	202

Caption or footnote for Ciprofloxacin / *P. aeruginosa*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

6 Gentamicine

6.1 Gentamicine, *A. baumannii*

phenotype	n
Aminoglycoside-non-wild-type	34
wild-type	124

Caption or footnote for Gentamicine / A. baumannii, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

6.2 Gentamicine, *E. faecalis*

phenotype	n
highlevel resistance	37
wild-type	100

Caption or footnote for Gentamicine / *E. faecalis*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

6.3 Gentamicine, *E. faecium*

phenotype	n
highlevel resistance	125
wild-type	102

Caption or footnote for Gentamicine / *E. faecium*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

6.4 Gentamicine, *P. aeruginosa*

phenotype	n
Aminoglycoside-non-wild-type	28
wild-type	267

Caption or footnote for Gentamicine / *P. aeruginosa*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

7 Imipeneme

7.1 Imipeneme, *A. baumannii*

phenotype	n
beta-Lactamase-non-wild-type	36
wild-type	122

Caption or footnote for Imipeneme / A. baumannii, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

7.2 Imipeneme, *P. aeruginosa*

phenotype	n
beta-Lactamase-non-wild-type	103
wild-type	192

Caption or footnote for Imipeneme / *P. aeruginosa*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

8 Levofloxacin

8.1 Levofloxacin, *A. baumannii*

phenotype	n
Quinolone-non-wild-type	38
wild-type	120

Caption or footnote for Levofloxacin / *A. baumannii*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

8.2 Levofloxacin, *P. aeruginosa*

phenotype	n
Quinolone-non-wild-type	108
wild-type	187

Caption or footnote for Levofloxacin / *P. aeruginosa*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

9 Meropeneme

9.1 Meropeneme, *A. baumannii*

phenotype	n
beta-Lactamase-non-wild-type	36
wild-type	122

Caption or footnote for Meropeneme / *A. baumannii*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

9.2 Meropeneme, *P. aeruginosa*

phenotype	n
beta-Lactamase-non-wild-type	72
wild-type	223

Caption or footnote for Meropeneme / *P. aeruginosa*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

10 Norfloxacin

10.1 Norfloxacin, *E. faecalis*

phenotype	n
Quinolone-non-wild-type	51
wild-type	86

Caption or footnote for Norfloxacin / E. faecalis, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

10.2 Norfloxacin, *E. faecium*

Caption or footnote for Norfloxacin / *E. faecium*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

11 Piperacilline/Tazobactam

11.1 Piperacilline/Tazobactam, *P. aeruginosa*

phenotype	n
beta-Lactamase-non-wild-type	41
wild-type	254

Caption or footnote for Piperacilline/Tazobactam / P. aeruginosa, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

12 Tobramycine

12.1 Tobramycine, *A. baumannii*

phenotype	n
Aminoglycoside-non-wild-type	26
wild-type	132

Caption or footnote for Tobramycine / *A. baumannii*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

12.2 Tobramycine, *P. aeruginosa*

phenotype	n
Aminoglycoside-non-wild-type	27
wild-type	268

Caption or footnote for Tobramycine / *P. aeruginosa*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

13 Vancomycine

13.1 Vancomycine, *E. faecalis*

phenotype	n
Glycopeptide-non-wild-type	2
wild-type	135

Caption or footnote for Vancomycine / *E. faecalis*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

13.2 Vancomycine, *E. faecium*

phenotype	n
Glycopeptide-non-wild-type	62
wild-type	165

Caption or footnote for Vancomycine / *E. faecium*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

14 Auxiliary figure for Tab. 2 (main text)
