## Contents

<b>1</b>	<b>Amoxicillin clavulanate</b>	<b>5</b>
1.1	Amoxicillin clavulanate, <i>Escherichia coli</i> . . . . .	5
1.2	Amoxicillin clavulanate, <i>Klebsiella pneumoniae</i> . . . . .	6
<b>2</b>	<b>Ampicillin</b>	<b>7</b>
2.1	Ampicillin, <i>Escherichia coli</i> . . . . .	7
<b>3</b>	<b>Cefepime</b>	<b>8</b>
3.1	Cefepime, <i>Enterobacter cloacae</i> . . . . .	8
3.2	Cefepime, <i>Escherichia coli</i> . . . . .	9
3.3	Cefepime, <i>Klebsiella pneumoniae</i> . . . . .	10
<b>4</b>	<b>Cefoxitin</b>	<b>11</b>
4.1	Cefoxitin, <i>Escherichia coli</i> . . . . .	11
4.2	Cefoxitin, <i>Klebsiella pneumoniae</i> . . . . .	12
4.3	Cefoxitin, <i>Staphylococcus aureus</i> . . . . .	13
4.4	Cefoxitin, <i>Staphylococcus epidermidis</i> . . . . .	14
<b>5</b>	<b>Cefpodoxime</b>	<b>15</b>
5.1	Cefpodoxime, <i>Enterobacter cloacae</i> . . . . .	15
5.2	Cefpodoxime, <i>Escherichia coli</i> . . . . .	16
5.3	Cefpodoxime, <i>Klebsiella pneumoniae</i> . . . . .	17
<b>6</b>	<b>Ceftriaxone</b>	<b>18</b>
6.1	Ceftriaxone, <i>Enterobacter cloacae</i> . . . . .	18
6.2	Ceftriaxone, <i>Escherichia coli</i> . . . . .	19
6.3	Ceftriaxone, <i>Klebsiella pneumoniae</i> . . . . .	20

<b>7</b>	<b>Cefuroxime</b>	<b>21</b>
7.1	Cefuroxime, <i>Enterobacter cloacae</i> . . . . .	21
7.2	Cefuroxime, <i>Escherichia coli</i> . . . . .	22
7.3	Cefuroxime, <i>Klebsiella pneumoniae</i> . . . . .	23
<b>8</b>	<b>Ciprofloxacin</b>	<b>24</b>
8.1	Ciprofloxacin, <i>Enterobacter cloacae</i> . . . . .	24
8.2	Ciprofloxacin, <i>Escherichia coli</i> . . . . .	25
8.3	Ciprofloxacin, <i>Klebsiella pneumoniae</i> . . . . .	26
8.4	Ciprofloxacin, <i>Staphylococcus aureus</i> . . . . .	27
8.5	Ciprofloxacin, <i>Staphylococcus epidermidis</i> . . . . .	28
<b>9</b>	<b>Clindamycin</b>	<b>29</b>
9.1	Clindamycin, <i>Staphylococcus aureus</i> . . . . .	29
9.2	Clindamycin, <i>Staphylococcus epidermidis</i> . . . . .	30
<b>10</b>	<b>Erythromycin</b>	<b>31</b>
10.1	Erythromycin, <i>Staphylococcus aureus</i> . . . . .	31
10.2	Erythromycin, <i>Staphylococcus epidermidis</i> . . . . .	32
<b>11</b>	<b>Fusidic acid</b>	<b>33</b>
11.1	Fusidic acid, <i>Staphylococcus aureus</i> . . . . .	33
11.2	Fusidic acid, <i>Staphylococcus epidermidis</i> . . . . .	34
<b>12</b>	<b>Gentamicin</b>	<b>35</b>
12.1	Gentamicin, <i>Enterobacter cloacae</i> . . . . .	35
12.2	Gentamicin, <i>Escherichia coli</i> . . . . .	36
12.3	Gentamicin, <i>Klebsiella pneumoniae</i> . . . . .	37
12.4	Gentamicin, <i>Staphylococcus aureus</i> . . . . .	38
12.5	Gentamicin, <i>Staphylococcus epidermidis</i> . . . . .	39
<b>13</b>	<b>Kanamycine</b>	<b>40</b>
13.1	Kanamycine, <i>Staphylococcus aureus</i> . . . . .	40
13.2	Kanamycine, <i>Staphylococcus epidermidis</i> . . . . .	41
<b>14</b>	<b>Levofloxacin</b>	<b>42</b>
14.1	Levofloxacin, <i>Enterobacter cloacae</i> . . . . .	42
14.2	Levofloxacin, <i>Escherichia coli</i> . . . . .	43
14.3	Levofloxacin, <i>Klebsiella pneumoniae</i> . . . . .	44
14.4	Levofloxacin, <i>Staphylococcus aureus</i> . . . . .	45
14.5	Levofloxacin, <i>Staphylococcus epidermidis</i> . . . . .	46

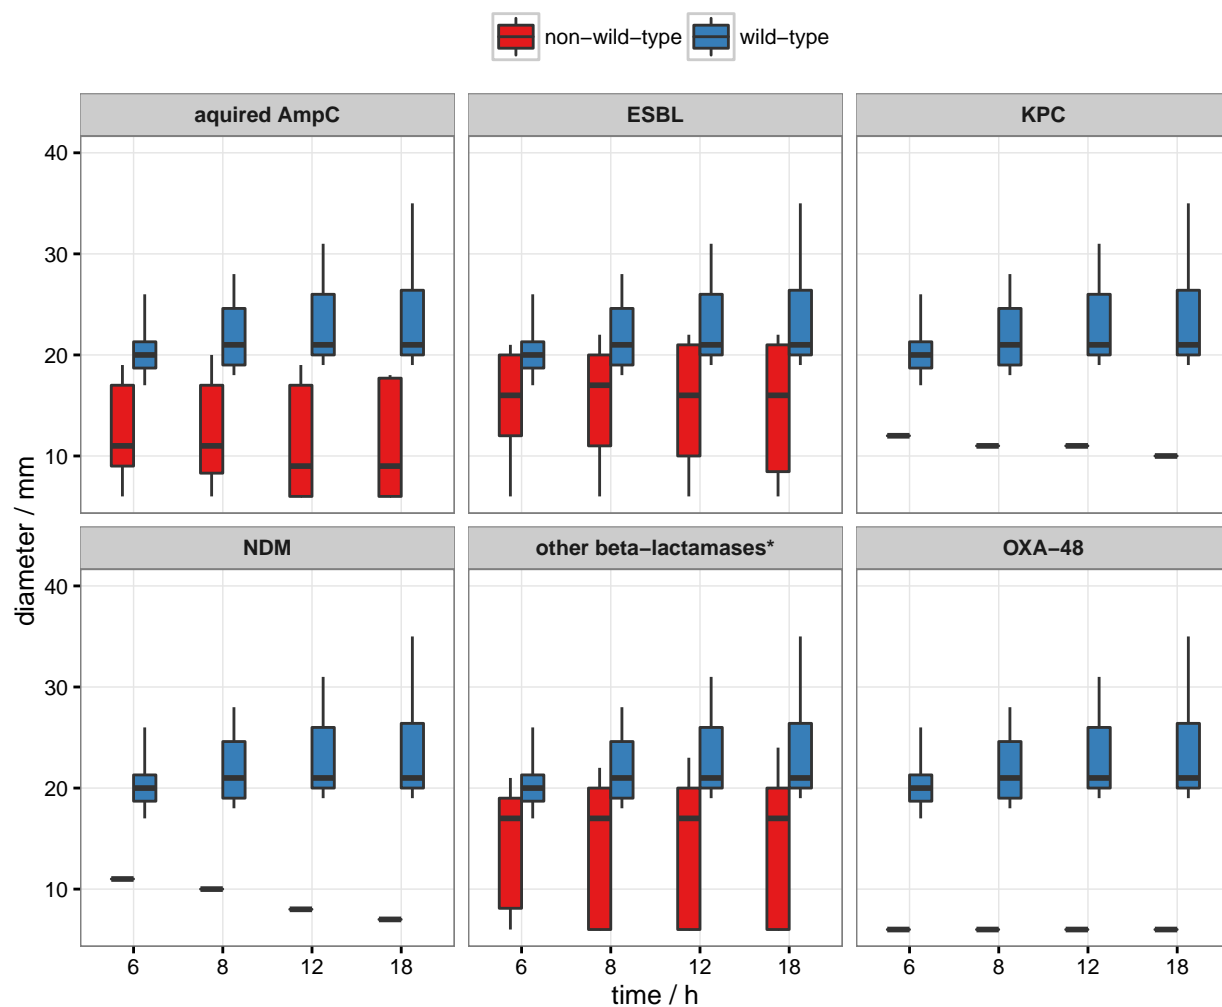

<b>15 Linezolid</b>	<b>47</b>
15.1 Linezolid, <i>Staphylococcus aureus</i> . . . . .	47
15.2 Linezolid, <i>Staphylococcus epidermidis</i> . . . . .	48
<b>16 Meropenem</b>	<b>49</b>
16.1 Meropenem, <i>Enterobacter cloacae</i> . . . . .	49
16.2 Meropenem, <i>Escherichia coli</i> . . . . .	50
16.3 Meropenem, <i>Klebsiella pneumoniae</i> . . . . .	51
<b>17 Minocyclin</b>	<b>52</b>
17.1 Minocyclin, <i>Enterobacter cloacae</i> . . . . .	52
17.2 Minocyclin, <i>Escherichia coli</i> . . . . .	53
17.3 Minocyclin, <i>Klebsiella pneumoniae</i> . . . . .	54
17.4 Minocyclin, <i>Staphylococcus aureus</i> . . . . .	55
17.5 Minocyclin, <i>Staphylococcus epidermidis</i> . . . . .	56
<b>18 Naladixic acid</b>	<b>57</b>
18.1 Naladixic acid, <i>Enterobacter cloacae</i> . . . . .	57
18.2 Naladixic acid, <i>Escherichia coli</i> . . . . .	58
18.3 Naladixic acid, <i>Klebsiella pneumoniae</i> . . . . .	59
<b>19 Norfloxacin</b>	<b>60</b>
19.1 Norfloxacin, <i>Enterobacter cloacae</i> . . . . .	60
19.2 Norfloxacin, <i>Escherichia coli</i> . . . . .	61
19.3 Norfloxacin, <i>Klebsiella pneumoniae</i> . . . . .	62
19.4 Norfloxacin, <i>Staphylococcus aureus</i> . . . . .	63
19.5 Norfloxacin, <i>Staphylococcus epidermidis</i> . . . . .	64
<b>20 Penicillin</b>	<b>65</b>
20.1 Penicillin, <i>Staphylococcus aureus</i> . . . . .	65
20.2 Penicillin, <i>Staphylococcus epidermidis</i> . . . . .	66
<b>21 Piperacillin/Tazobactam</b>	<b>67</b>
21.1 Piperacillin/Tazobactam, <i>Enterobacter cloacae</i> . . . . .	67
21.2 Piperacillin/Tazobactam, <i>Escherichia coli</i> . . . . .	68
21.3 Piperacillin/Tazobactam, <i>Klebsiella pneumoniae</i> . . . . .	69
<b>22 Rifampicin</b>	<b>70</b>
22.1 Rifampicin, <i>Staphylococcus aureus</i> . . . . .	70
22.2 Rifampicin, <i>Staphylococcus epidermidis</i> . . . . .	71

<b>23 Sulfameth./Trimethoprim</b>	<b>72</b>
23.1 Sulfameth./Trimethoprim, <i>Enterobacter cloacae</i> . . . . .	72
23.2 Sulfameth./Trimethoprim, <i>Escherichia coli</i> . . . . .	73
23.3 Sulfameth./Trimethoprim, <i>Klebsiella pneumoniae</i> . . . . .	74
23.4 Sulfameth./Trimethoprim, <i>Staphylococcus aureus</i> . . . . .	75
23.5 Sulfameth./Trimethoprim, <i>Staphylococcus epidermidis</i> . . . . .	76
<b>24 Temocillin</b>	<b>77</b>
24.1 Temocillin, <i>Enterobacter cloacae</i> . . . . .	77
24.2 Temocillin, <i>Escherichia coli</i> . . . . .	78
24.3 Temocillin, <i>Klebsiella pneumoniae</i> . . . . .	79
<b>25 Tetracycline</b>	<b>80</b>
25.1 Tetracycline, <i>Enterobacter cloacae</i> . . . . .	80
25.2 Tetracycline, <i>Escherichia coli</i> . . . . .	81
25.3 Tetracycline, <i>Klebsiella pneumoniae</i> . . . . .	82
25.4 Tetracycline, <i>Staphylococcus aureus</i> . . . . .	83
25.5 Tetracycline, <i>Staphylococcus epidermidis</i> . . . . .	84
<b>26 Tigecycline</b>	<b>85</b>
26.1 Tigecycline, <i>Enterobacter cloacae</i> . . . . .	85
26.2 Tigecycline, <i>Escherichia coli</i> . . . . .	86
26.3 Tigecycline, <i>Klebsiella pneumoniae</i> . . . . .	87
26.4 Tigecycline, <i>Staphylococcus aureus</i> . . . . .	88
26.5 Tigecycline, <i>Staphylococcus epidermidis</i> . . . . .	89
<b>27 Tobramycin</b>	<b>90</b>
27.1 Tobramycin, <i>Enterobacter cloacae</i> . . . . .	90
27.2 Tobramycin, <i>Escherichia coli</i> . . . . .	91
27.3 Tobramycin, <i>Klebsiella pneumoniae</i> . . . . .	92
27.4 Tobramycin, <i>Staphylococcus aureus</i> . . . . .	93
27.5 Tobramycin, <i>Staphylococcus epidermidis</i> . . . . .	94

# 1 Amoxicillin clavulanate

## 1.1 Amoxicillin clavulanate, *Escherichia coli*

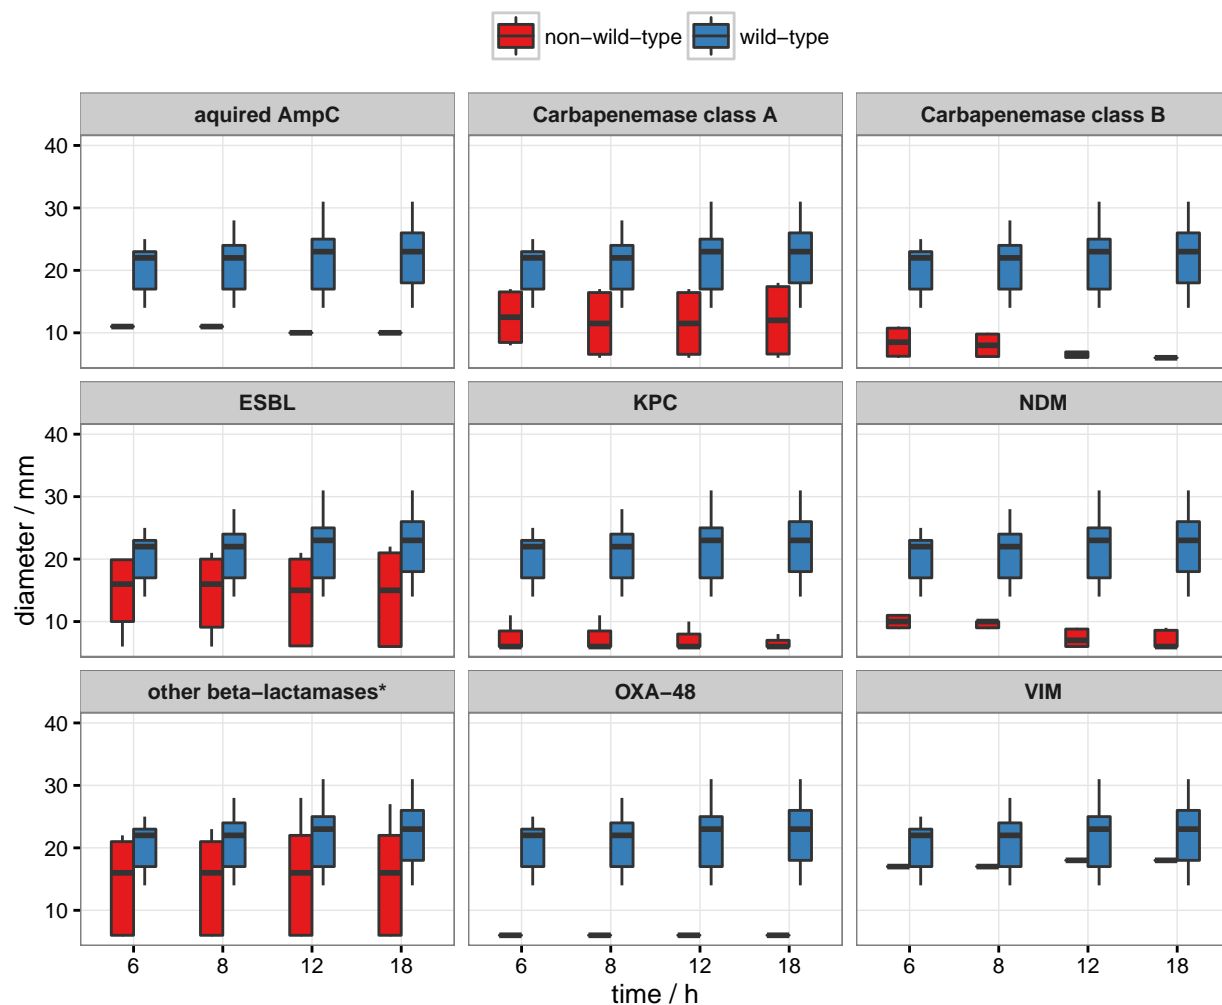

phenotype	n
aquired AmpC	47
ESBL	150
KPC	1
NDM	1
other beta-lactamases*	217
OXA-48	4
wild-type	57

Caption or footnote for Amoxicillin clavulanate / *Escherichia coli*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

## 1.2 Amoxicillin clavulanate, *Klebsiella pneumoniae*

phenotype	n
aquired AmpC	1
Carbapenemase class A	2
Carbapenemase class B	2
ESBL	63
KPC	11
NDM	5
other beta-lactamases*	129
OXA-48	10
VIM	1
wild-type	155

Caption or footnote for Amoxicillin clavulanate / *Klebsiella pneumoniae*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

## 2 Ampicillin

### 2.1 Ampicillin, *Escherichia coli*

phenotype	n
aquired AmpC	47
ESBL	150
KPC	1
NDM	1
other beta-lactamases*	217
OXA-48	4
wild-type	57

Caption or footnote for Ampicillin / *Escherichia coli*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

### 3 Cefepime

#### 3.1 Cefepime, *Enterobacter cloacae*

phenotype	n
AmpC hyperproduction	223
Carbapenemase class A	1
ESBL	26
OXA-48	1
VIM	1
wild-type	52

Caption or footnote for Cefepime / *Enterobacter cloacae*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

### 3.2 Cefepime, *Escherichia coli*

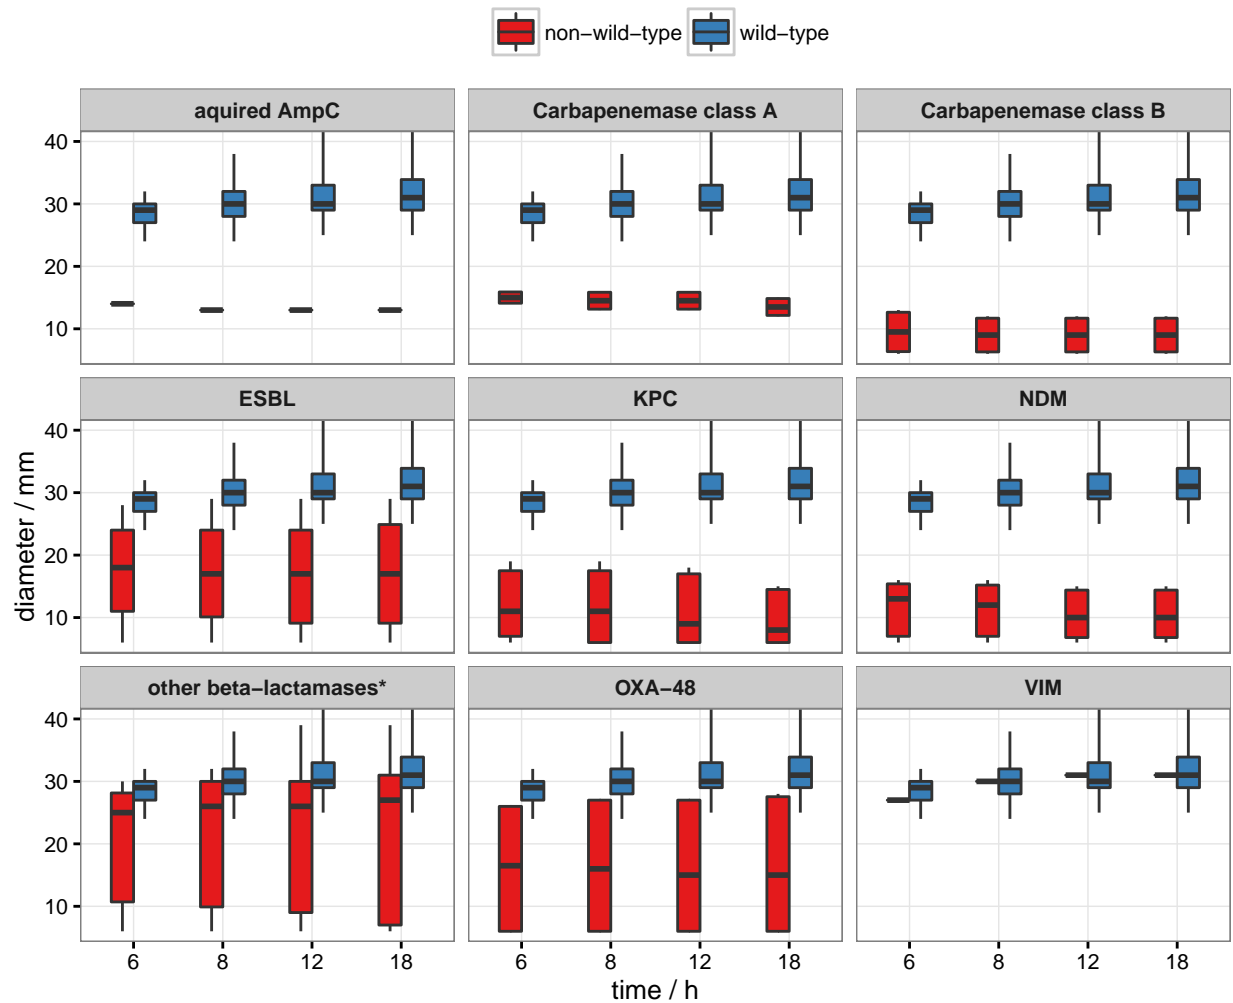

phenotype	n
acquired AmpC	47
ESBL	150
KPC	1
NDM	1
other beta-lactamases*	217
OXA-48	4
wild-type	57

Caption or footnote for Cefepime / *Escherichia coli*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

### 3.3 Cefepime, *Klebsiella pneumoniae*

phenotype	n
acquired AmpC	1
Carbapenemase class A	2
Carbapenemase class B	2
ESBL	63
KPC	11
NDM	5
other beta-lactamases*	121
OXA-48	10
VIM	1
wild-type	163

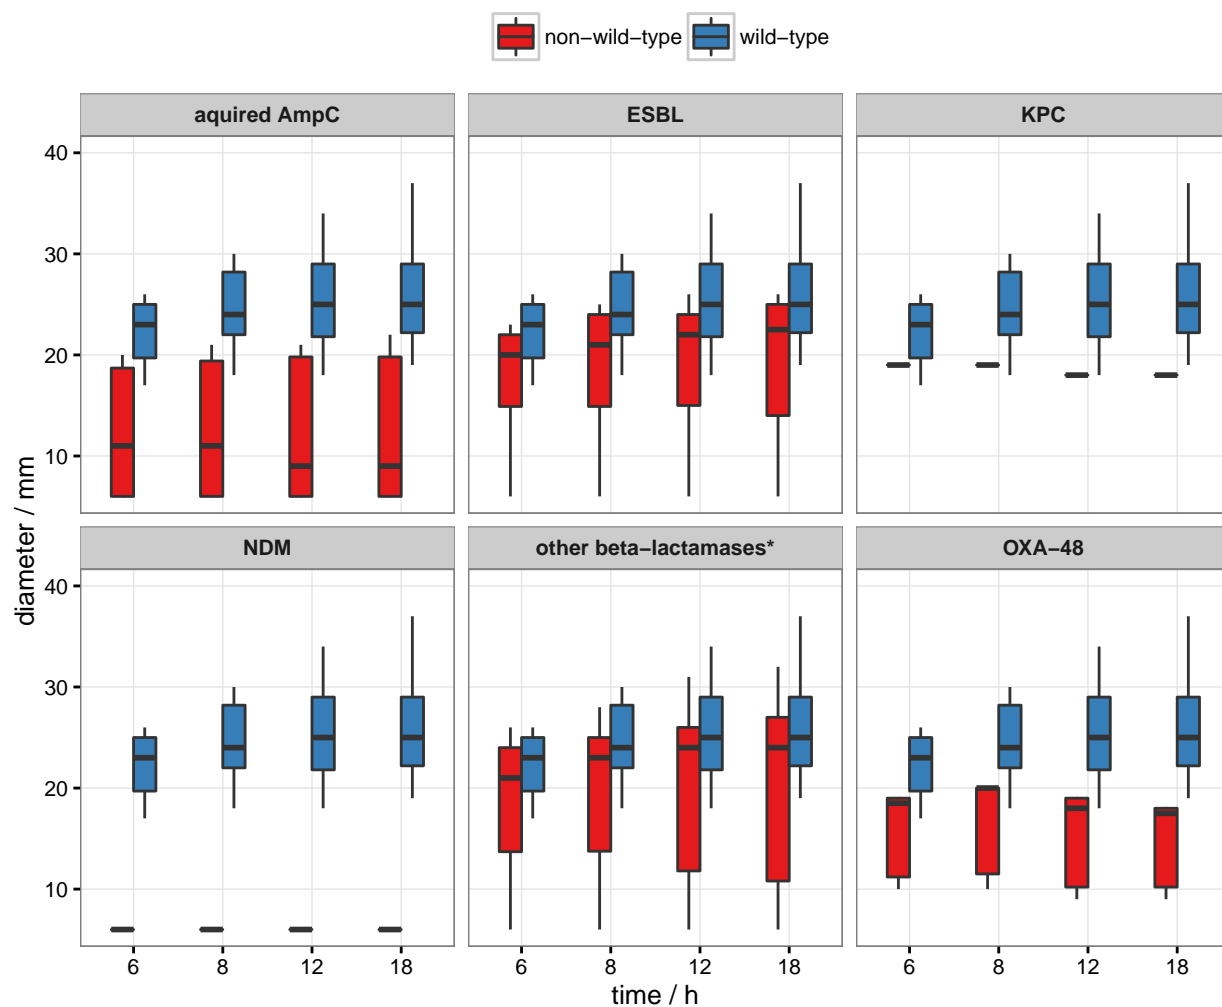

Caption or footnote for Cefepime / *Klebsiella pneumoniae*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

## 4 Cefoxitin

### 4.1 Cefoxitin, *Escherichia coli*

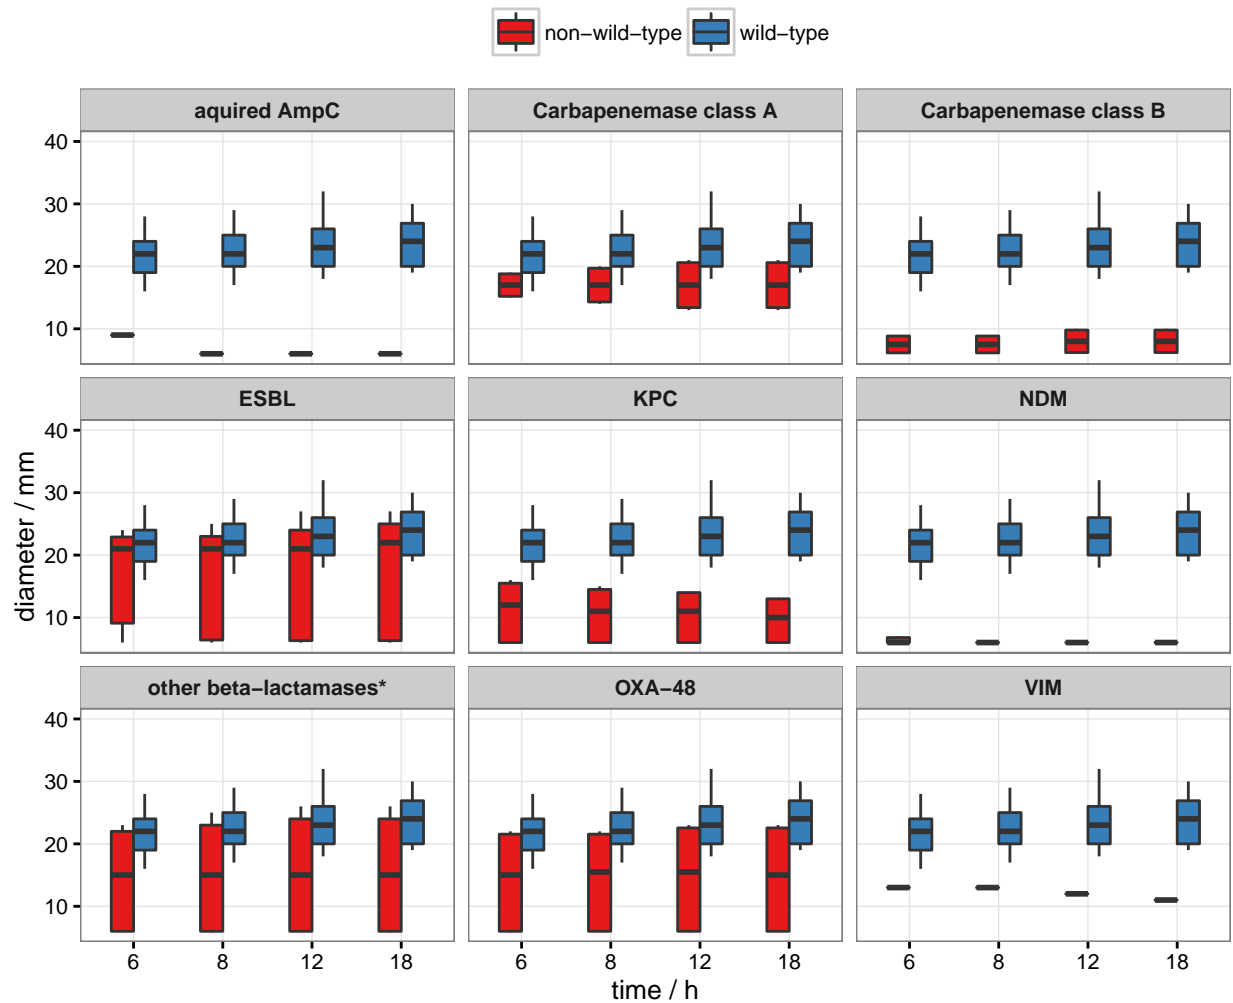

phenotype	n
aquired AmpC	47
ESBL	150
KPC	1
NDM	1
other beta-lactamases*	217
OXA-48	4
wild-type	57

Caption or footnote for Cefoxitin / *Escherichia coli*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

## 4.2 Cefoxitin, *Klebsiella pneumoniae*

phenotype	n
aquired AmpC	1
Carbapenemase class A	2
Carbapenemase class B	2
ESBL	63
KPC	11
NDM	5
other beta-lactamases*	121
OXA-48	10
VIM	1
wild-type	163

Caption or footnote for Cefoxitin / *Klebsiella pneumoniae*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

4.3 Cefoxitin, *Staphylococcus aureus*

phenotype	n
PBP2a	51
wild-type	158

Caption or footnote for Cefoxitin / *Staphylococcus aureus*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

4.4 Cefoxitin, *Staphylococcus epidermidis*

phenotype	n
blaZ Penicillinase	4
PBP2a	256
wild-type	34

Caption or footnote for Cefoxitin / *Staphylococcus epidermidis*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

# 5 Cefpodoxime

## 5.1 Cefpodoxime, *Enterobacter cloacae*

phenotype	n
AmpC hyperproduction	223
Carbapenemase class A	1
ESBL	26
OXA-48	1
VIM	1
wild-type	52

Caption or footnote for Cefpodoxime / *Enterobacter cloacae*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

## 5.2 Cefpodoxime, *Escherichia coli*

phenotype	n
acquired AmpC	47
ESBL	150
KPC	1
NDM	1
other beta-lactamases*	217
OXA-48	4
wild-type	57

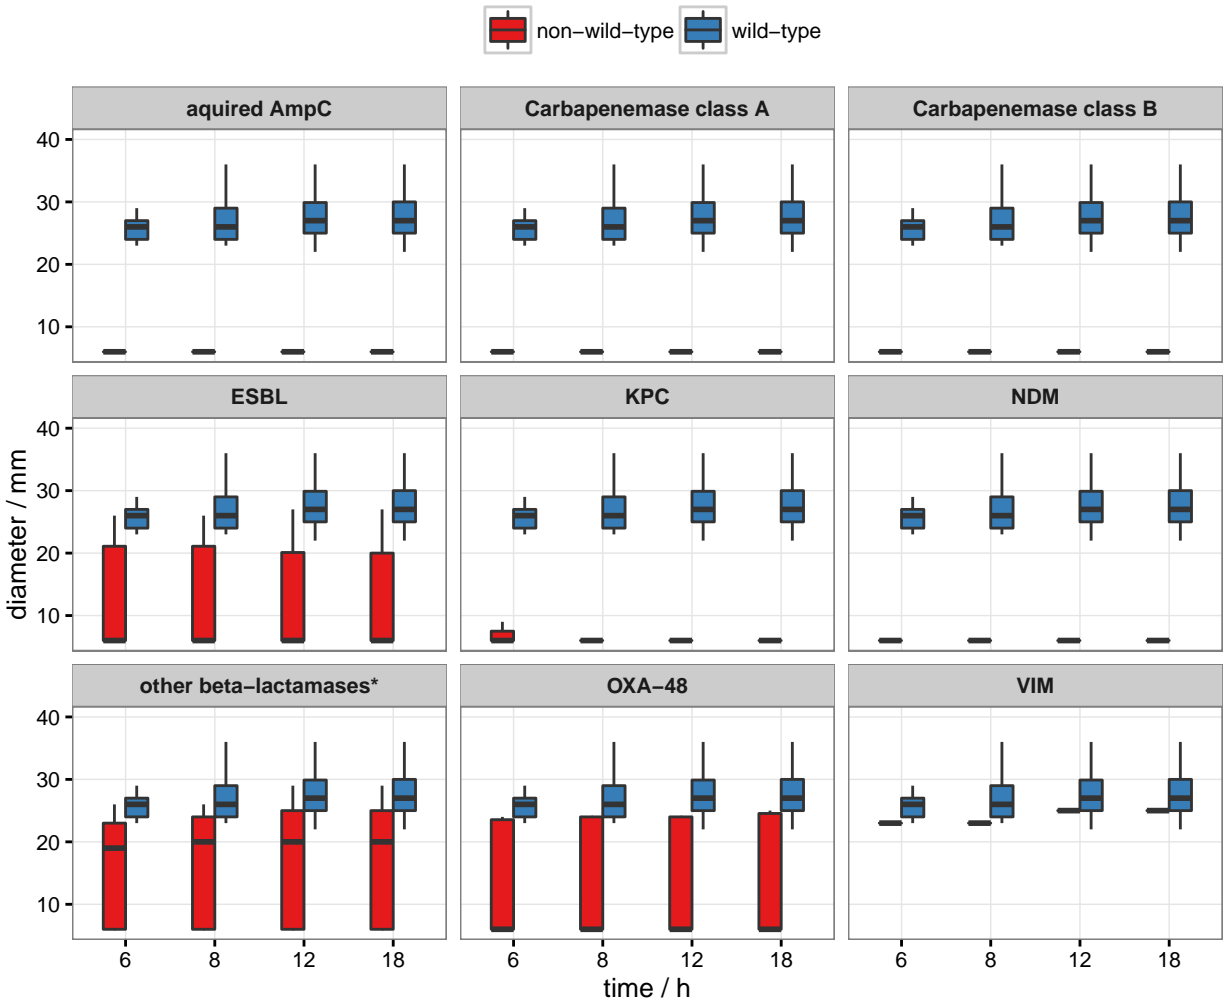

Caption or footnote for Cefpodoxime / *Escherichia coli*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

### 5.3 Cefpodoxime, *Klebsiella pneumoniae*

phenotype	n
aquired AmpC	1
Carbapenemase class A	2
Carbapenemase class B	2
ESBL	63
KPC	11
NDM	5
other beta-lactamases*	121
OXA-48	10
VIM	1
wild-type	163

Caption or footnote for Cefpodoxime / *Klebsiella pneumoniae*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

# 6 Ceftriaxone

## 6.1 Ceftriaxone, *Enterobacter cloacae*

phenotype	n
AmpC hyperproduction	223
Carbapenemase class A	1
ESBL	26
OXA-48	1
VIM	1
wild-type	52

Caption or footnote for Ceftriaxone / *Enterobacter cloacae*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

6.2 Ceftriaxone, *Escherichia coli*

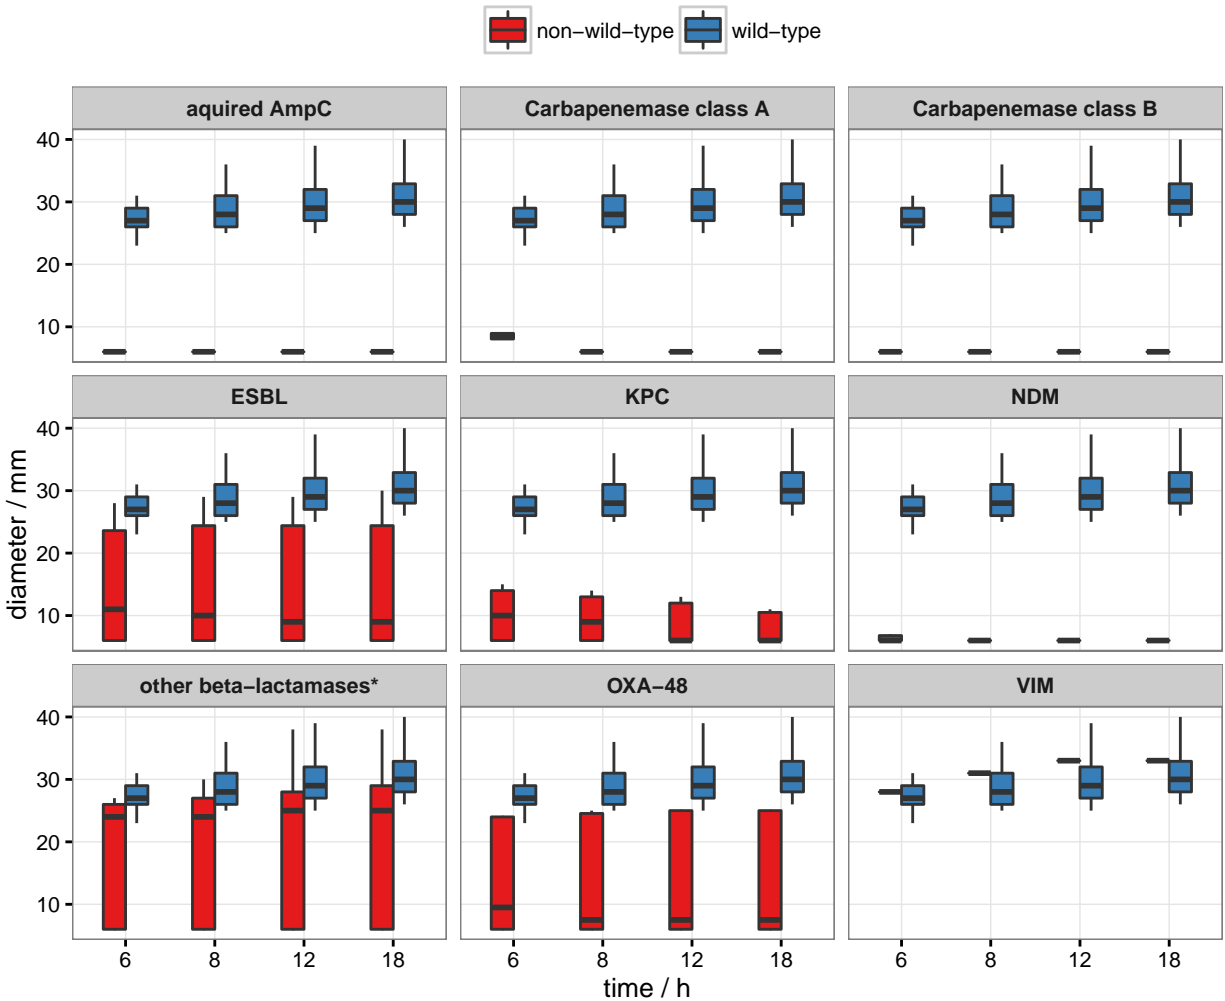

phenotype	n
acquired AmpC	47
ESBL	150
KPC	1
NDM	1
other beta-lactamases*	217
OXA-48	4
wild-type	57

Caption or footnote for Ceftriaxone / *Escherichia coli*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

### 6.3 Ceftriaxone, *Klebsiella pneumoniae*

phenotype	n
acquired AmpC	1
Carbapenemase class A	2
Carbapenemase class B	2
ESBL	63
KPC	11
NDM	5
other beta-lactamases*	121
OXA-48	10
VIM	1
wild-type	163

Caption or footnote for Ceftriaxone / *Klebsiella pneumoniae*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

## 7 Cefuroxime

### 7.1 Cefuroxime, *Enterobacter cloacae*

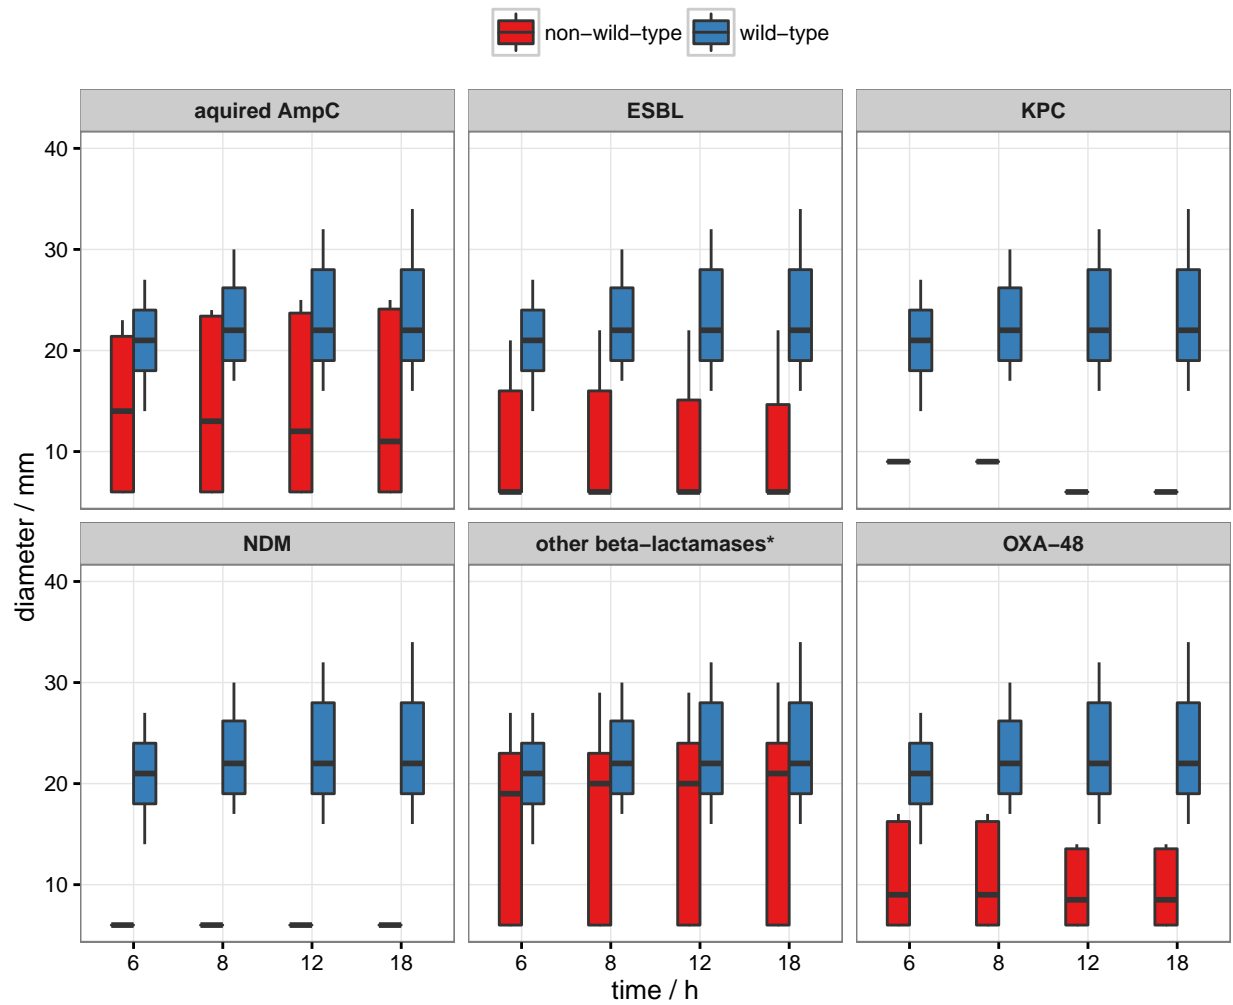

phenotype	n
AmpC hyperproduction	223
Carbapenemase class A	1
ESBL	26
OXA-48	1
VIM	1
wild-type	52

Caption or footnote for Cefuroxime / *Enterobacter cloacae*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

7.2 Cefuroxime, *Escherichia coli*

phenotype	n
acquired AmpC	47
ESBL	150
KPC	1
NDM	1
other beta-lactamases*	217
OXA-48	4
wild-type	57

Caption or footnote for Cefuroxime / *Escherichia coli*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

### 7.3 Cefuroxime, *Klebsiella pneumoniae*

phenotype	n
aquired AmpC	1
Carbapenemase class A	2
Carbapenemase class B	2
ESBL	63
KPC	11
NDM	5
other beta-lactamases*	121
OXA-48	10
VIM	1
wild-type	163

Caption or footnote for Cefuroxime / *Klebsiella pneumoniae*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

## 8 Ciprofloxacin

### 8.1 Ciprofloxacin, *Enterobacter cloacae*

phenotype	n
high level resistance	92
low level resistance	65
wild-type	144

Caption or footnote for Ciprofloxacin / *Enterobacter cloacae*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

8.2 Ciprofloxacin, *Escherichia coli*

phenotype	n
high level resistance	259
low level resistance	81
wild-type	135

Caption or footnote for Ciprofloxacin / *Escherichia coli*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

8.3 Ciprofloxacin, *Klebsiella pneumoniae*

phenotype	n
high level resistance	140
low level resistance	117
wild-type	119

Caption or footnote for Ciprofloxacin / *Klebsiella pneumoniae*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

8.4 Ciprofloxacin, *Staphylococcus aureus*

phenotype	n
high level resistance	58
low level resistance	23
wild-type	326

Caption or footnote for Ciprofloxacin / *Staphylococcus aureus*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

8.5 Ciprofloxacin, *Staphylococcus epidermidis*

phenotype	n
high level resistance	178
low level resistance	5
wild-type	111

Caption or footnote for Ciprofloxacin / *Staphylococcus epidermidis*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

## 9 Clindamycin

### 9.1 Clindamycin, *Staphylococcus aureus*

phenotype	n
cMLS	26
iMLS	44
wild-type	97

Caption or footnote for Clindamycin / *Staphylococcus aureus*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

9.2 Clindamycin, *Staphylococcus epidermidis*

phenotype	n
cMLS	22
iMLS	5
lnu	9
wild-type	83

Caption or footnote for Clindamycin / *Staphylococcus epidermidis*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

## 10 Erythromycin

### 10.1 Erythromycin, *Staphylococcus aureus*

phenotype	n
cMLS	26
Efflux	22
iMLS	44
wild-type	75

Caption or footnote for Erythromycin / *Staphylococcus aureus*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

10.2 Erythromycin, *Staphylococcus epidermidis*

phenotype	n
cMLS	22
Efflux	28
iMLS	5
wild-type	64

Caption or footnote for Erythromycin / *Staphylococcus epidermidis*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

## 11 Fusidic acid

### 11.1 Fusidic acid, *Staphylococcus aureus*

phenotype	n
non-wild-type	37
wild-type	370

Caption or footnote for Fusidic acid / *Staphylococcus aureus*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

11.2 Fusidic acid, *Staphylococcus epidermidis*

phenotype	n
non-wild-type	150
wild-type	144

Caption or footnote for Fusidic acid / *Staphylococcus epidermidis*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

# 12 Gentamicin

## 12.1 Gentamicin, *Enterobacter cloacae*

phenotype	n
AAC(2')/AAC(3')-II/-IV	2
multiple mechanisms	84
wild-type	213

Caption or footnote for Gentamicin / *Enterobacter cloacae*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

12.2 Gentamicin, *Escherichia coli*

phenotype	n
AAC(2')/AAC(3')-II/-IV	11
multiple mechanisms	113
wild-type	349

Caption or footnote for Gentamicin / *Escherichia coli*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

12.3 Gentamicin, *Klebsiella pneumoniae*

phenotype	n
AAC(2')/AAC(3')-II/-IV	3
multiple mechanisms	72
wild-type	300

Caption or footnote for Gentamicin / *Klebsiella pneumoniae*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

12.4 Gentamicin, *Staphylococcus aureus*

Caption or footnote for Gentamicin / *Staphylococcus aureus*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

12.5 Gentamicin, *Staphylococcus epidermidis*

phenotype	n
multiple mechanisms	148
wild-type	127

Caption or footnote for Gentamicin / *Staphylococcus epidermidis*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

# 13 Kanamycine

## 13.1 Kanamycine, *Staphylococcus aureus*

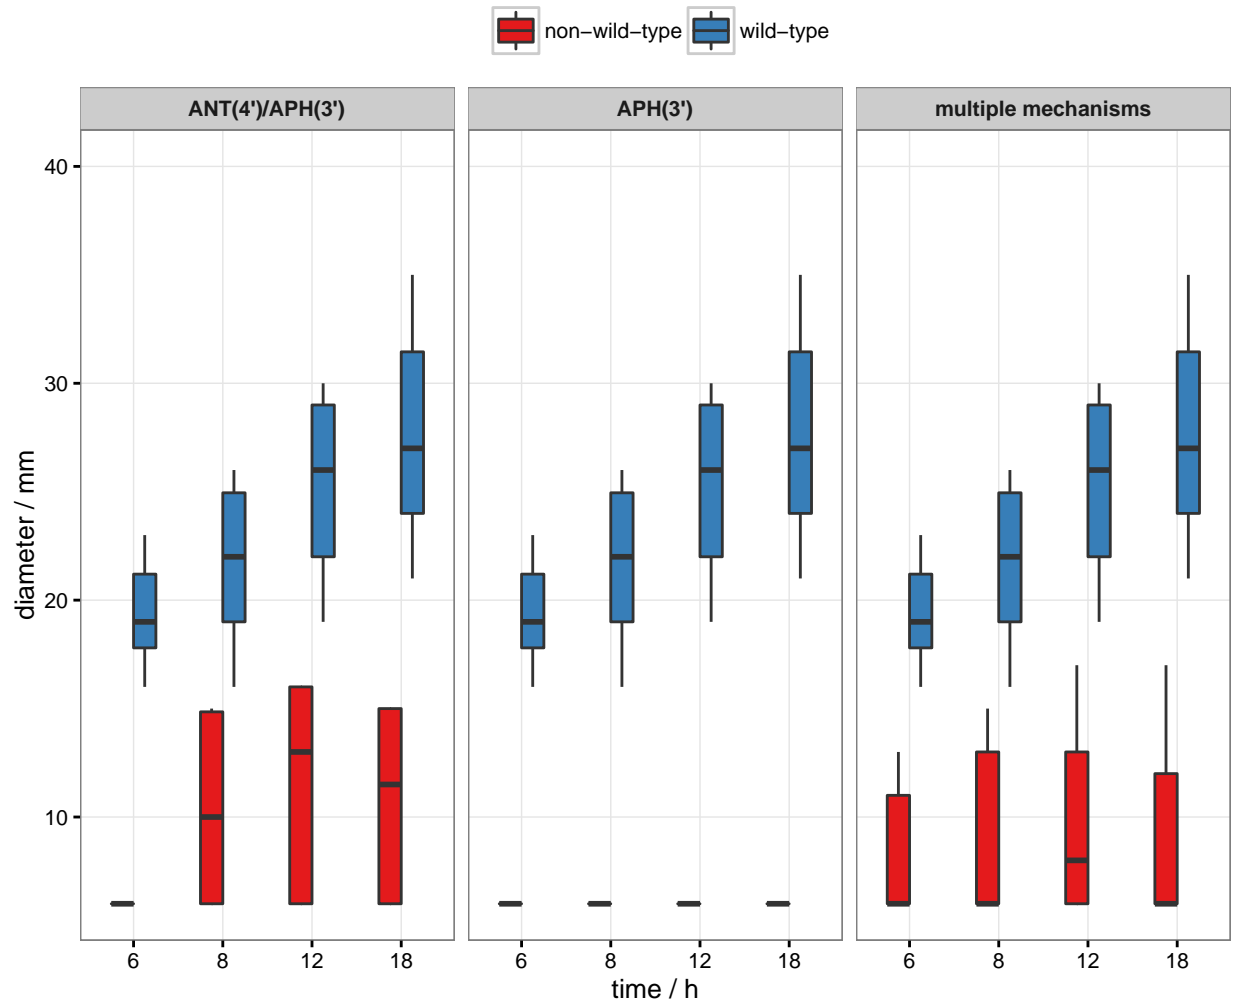

Caption or footnote for Kanamycine / *Staphylococcus aureus*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

13.2 Kanamycine, *Staphylococcus epidermidis*

phenotype	n
ANT(4')/APH(3')	10
APH(3')	5
multiple mechanisms	148
wild-type	112

Caption or footnote for Kanamycine / *Staphylococcus epidermidis*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

14 Levofloxacin

14.1 Levofloxacin, *Enterobacter cloacae*

phenotype	n
high level resistance	92
low level resistance	65
wild-type	144

Caption or footnote for Levofloxacin / *Enterobacter cloacae*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

14.2 Levofloxacin, *Escherichia coli*

phenotype	n
high level resistance	259
low level resistance	81
wild-type	135

Caption or footnote for Levofloxacin / *Escherichia coli*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

14.3 Levofloxacin, *Klebsiella pneumoniae*

phenotype	n
high level resistance	140
low level resistance	117
wild-type	119

Caption or footnote for Levofloxacin / *Klebsiella pneumoniae*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

14.4 Levofloxacin, *Staphylococcus aureus*

phenotype	n
high level resistance	58
low level resistance	23
wild-type	326

Caption or footnote for Levofloxacin / *Staphylococcus aureus*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

14.5 Levofloxacin, *Staphylococcus epidermidis*

phenotype	n
high level resistance	178
low level resistance	5
wild-type	111

Caption or footnote for Levofloxacin / *Staphylococcus epidermidis*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

# 15 Linezolid

## 15.1 Linezolid, *Staphylococcus aureus*

phenotype	n
wild-type	407

Caption or footnote for Linezolid / *Staphylococcus aureus*, to be written.

15.2 Linezolid, *Staphylococcus epidermidis*

phenotype	n
wild-type	294

Caption or footnote for Linezolid / *Staphylococcus epidermidis*, to be written.

## 16 Meropenem

### 16.1 Meropenem, *Enterobacter cloacae*

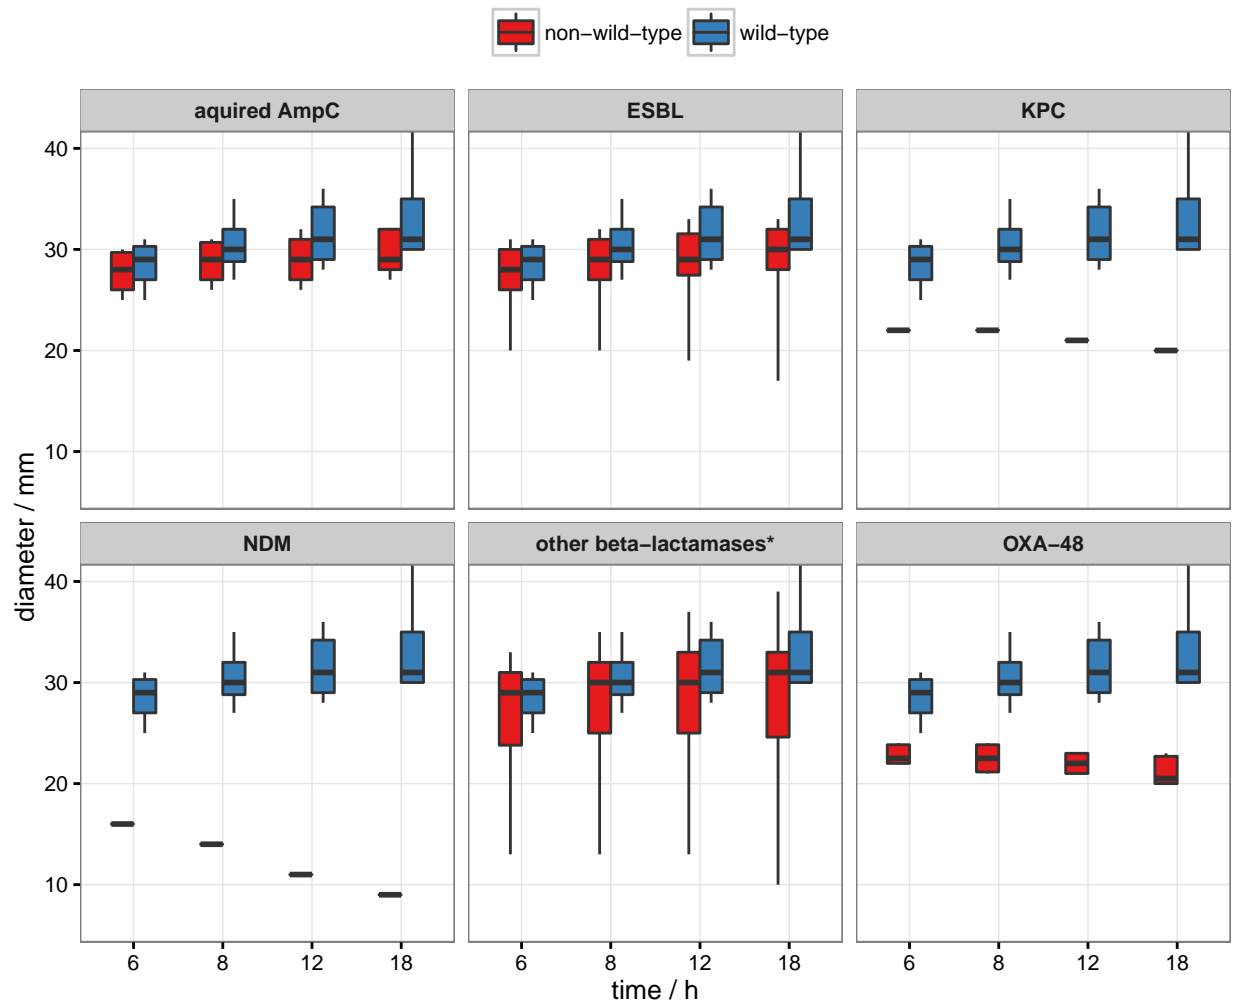

phenotype	n
AmpC hyperproduction	223
Carbapenemase class A	1
ESBL	26
OXA-48	1
VIM	1
wild-type	52

Caption or footnote for Meropenem / *Enterobacter cloacae*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

16.2 Meropenem, *Escherichia coli*

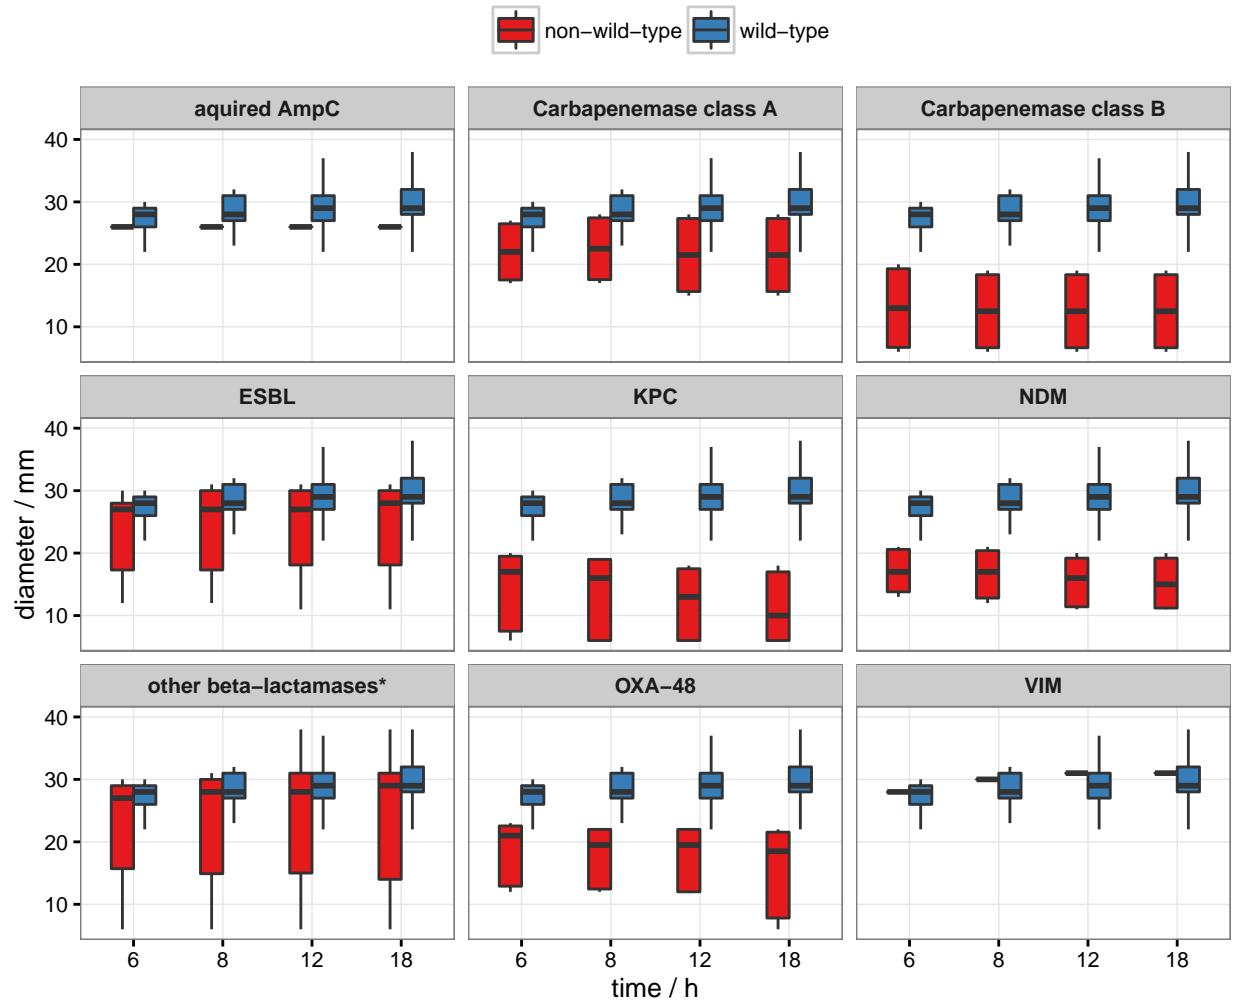

phenotype	n
acquired AmpC	47
ESBL	150
KPC	1
NDM	1
other beta-lactamases*	217
OXA-48	4
wild-type	57

Caption or footnote for Meropenem / *Escherichia coli*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

16.3 Meropenem, *Klebsiella pneumoniae*

phenotype	n
aquired AmpC	1
Carbapenemase class A	2
Carbapenemase class B	2
ESBL	63
KPC	11
NDM	5
other beta-lactamases*	121
OXA-48	10
VIM	1
wild-type	163

Caption or footnote for Meropenem / *Klebsiella pneumoniae*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

## 17 Minocyclin

### 17.1 Minocyclin, *Enterobacter cloacae*

Caption or footnote for Minocyclin / *Enterobacter cloacae*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

17.2 Minocyclin, *Escherichia coli*

phenotype	n
RND pump	3
tetB / tetM	125
wild-type	347

Caption or footnote for Minocyclin / *Escherichia coli*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

17.3 Minocyclin, *Klebsiella pneumoniae*

phenotype	n
RND pump	87
tetB / tetM	36
wild-type	253

Caption or footnote for Minocyclin / *Klebsiella pneumoniae*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

17.4 Minocyclin, *Staphylococcus aureus*

phenotype	n
efflux PLUS ribosomal protection	6
efflux PLUS ribosomal protection	1
wild-type	403

Caption or footnote for Minocyclin / *Staphylococcus aureus*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

17.5 Minocyclin, *Staphylococcus epidermidis*

phenotype	n
efflux PLUS ribosomal protection	3
wild-type	294

Caption or footnote for Minocyclin / *Staphylococcus epidermidis*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

## 18 Naladixic acid

### 18.1 Naladixic acid, *Enterobacter cloacae*

Caption or footnote for Naladixic acid / *Enterobacter cloacae*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

18.2 Naladixic acid, *Escherichia coli*

phenotype	n
high level resistance	259
low level resistance	81
wild-type	135

Caption or footnote for Naladixic acid / *Escherichia coli*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

18.3 Naladixic acid, *Klebsiella pneumoniae*

phenotype	n
high level resistance	140
low level resistance	117
wild-type	119

Caption or footnote for Naladixic acid / *Klebsiella pneumoniae*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

## 19 Norfloxacin

### 19.1 Norfloxacin, *Enterobacter cloacae*

Caption or footnote for Norfloxacin / *Enterobacter cloacae*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

19.2 Norfloxacin, *Escherichia coli*

phenotype	n
high level resistance	259
low level resistance	81
wild-type	135

Caption or footnote for Norfloxacin / *Escherichia coli*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

19.3 Norfloxacin, *Klebsiella pneumoniae*

phenotype	n
high level resistance	140
low level resistance	117
wild-type	119

Caption or footnote for Norfloxacin / *Klebsiella pneumoniae*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

19.4 Norfloxacin, *Staphylococcus aureus*

phenotype	n
high level resistance	58
low level resistance	23
wild-type	326

Caption or footnote for Norfloxacin / *Staphylococcus aureus*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

19.5 Norfloxacin, *Staphylococcus epidermidis*

phenotype	n
high level resistance	178
low level resistance	5
wild-type	111

Caption or footnote for Norfloxacin / *Staphylococcus epidermidis*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

# 20 Penicillin

## 20.1 Penicillin, *Staphylococcus aureus*

phenotype	n
blaZ Penicillinase	185
PBP2a	51
wild-type	158

Caption or footnote for Penicillin / *Staphylococcus aureus*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

20.2 Penicillin, *Staphylococcus epidermidis*

phenotype	n
blaZ Penicillinase	4
PBP2a	256
wild-type	34

Caption or footnote for Penicillin / *Staphylococcus epidermidis*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

21 Piperacillin/Tazobactam

21.1 Piperacillin/Tazobactam, *Enterobacter cloacae*

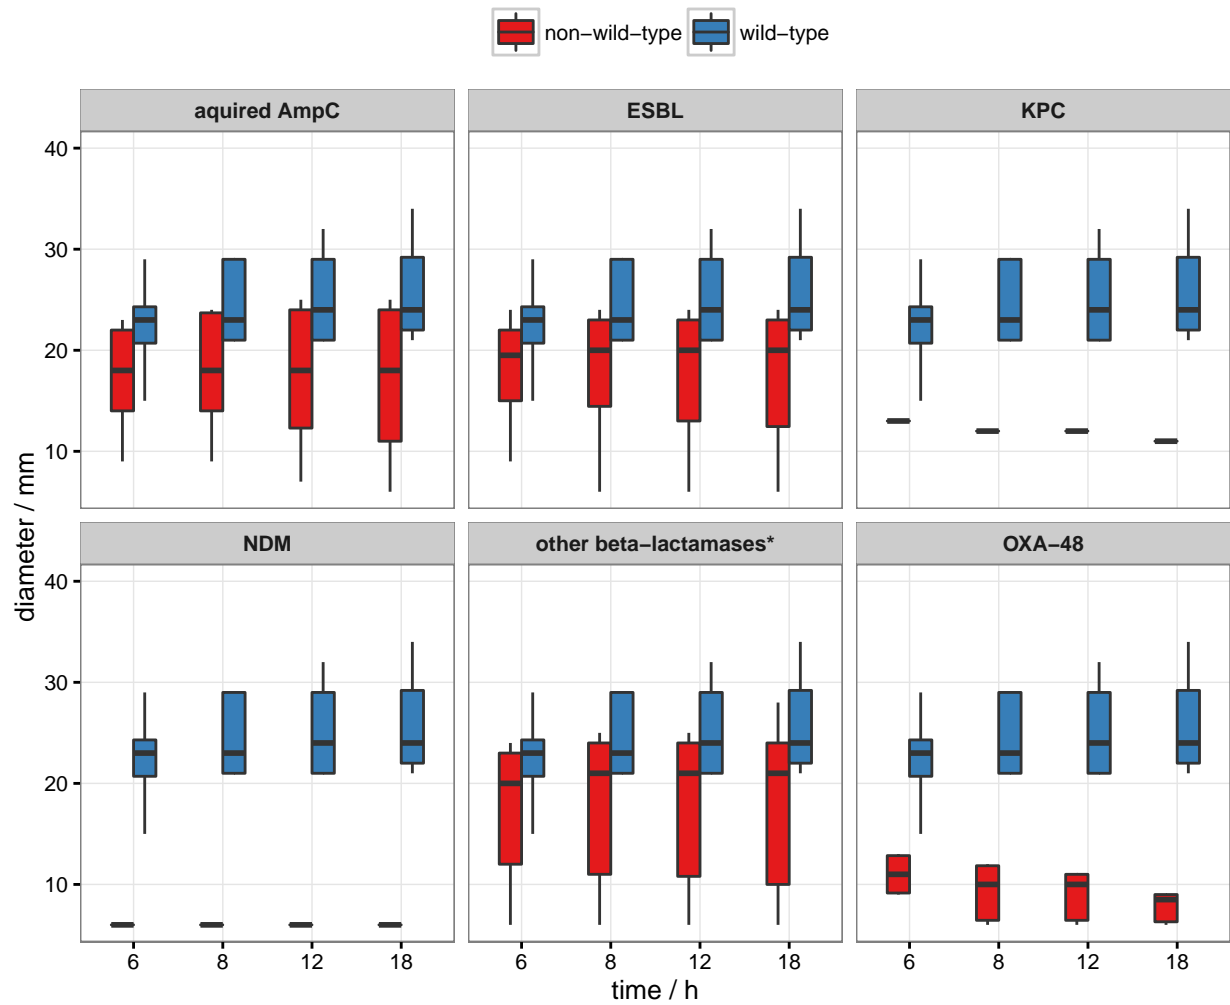

phenotype	n
AmpC hyperproduction	223
Carbapenemase class A	1
ESBL	26
OXA-48	1
VIM	1
wild-type	52

Caption or footnote for Piperacillin/Tazobactam / *Enterobacter cloacae*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

21.2 Piperacillin/Tazobactam, *Escherichia coli*

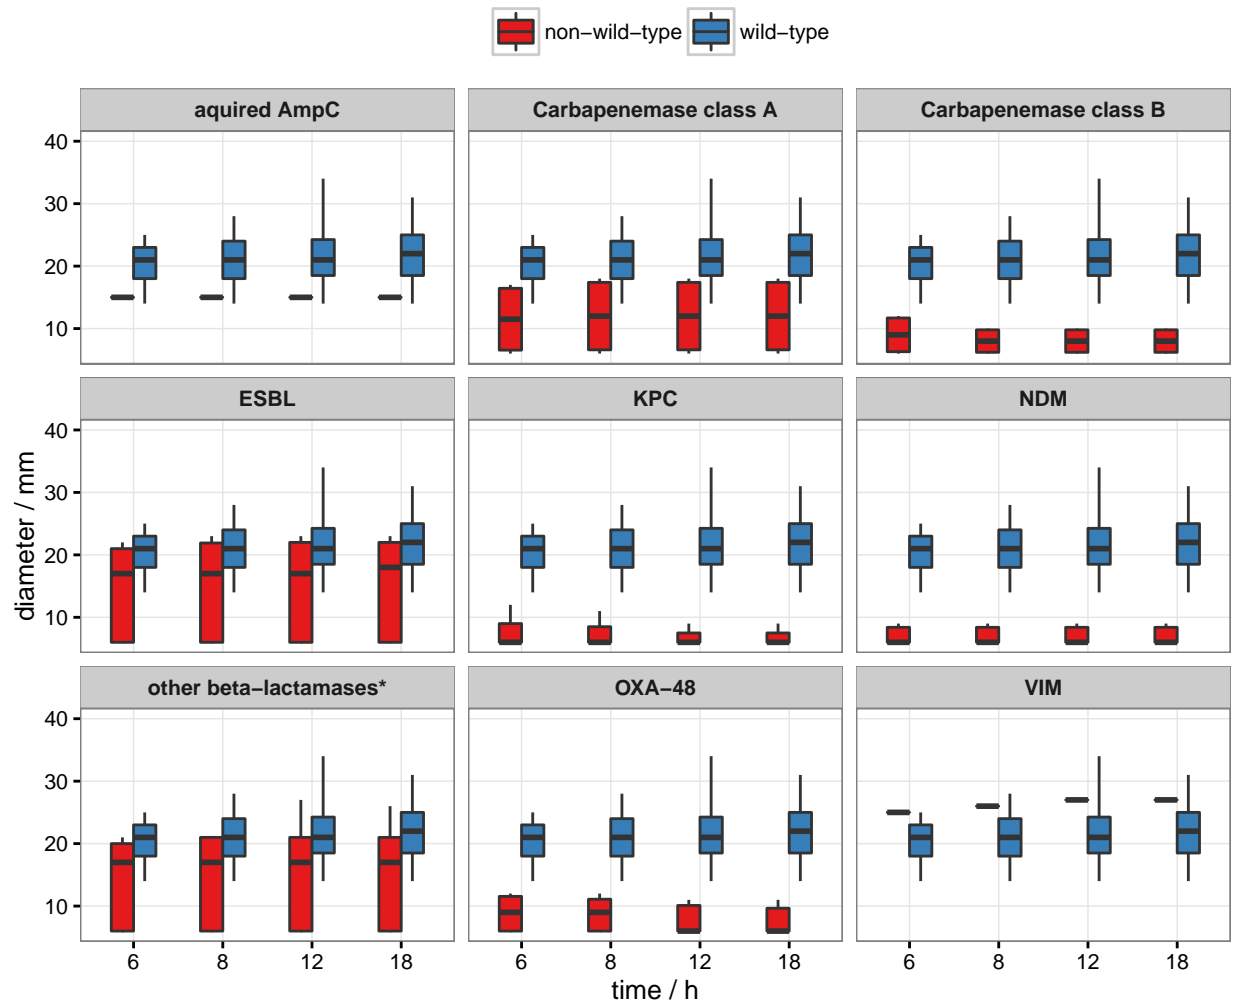

phenotype	n
acquired AmpC	47
ESBL	150
KPC	1
NDM	1
other beta-lactamases*	217
OXA-48	4
wild-type	57

Caption or footnote for Piperacillin/Tazobactam / *Escherichia coli*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

21.3 Piperacillin/Tazobactam, *Klebsiella pneumoniae*

phenotype	n
aquired AmpC	1
Carbapenemase class A	2
Carbapenemase class B	2
ESBL	63
KPC	11
NDM	5
other beta-lactamases*	128
OXA-48	10
VIM	1
wild-type	156

Caption or footnote for Piperacillin/Tazobactam / *Klebsiella pneumoniae*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

22 Rifampicin

22.1 Rifampicin, *Staphylococcus aureus*

phenotype	n
non-wild-type	7
wild-type	400

Caption or footnote for Rifampicin / *Staphylococcus aureus*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

22.2 Rifampicin, *Staphylococcus epidermidis*

phenotype	n
non-wild-type	41
wild-type	253

Caption or footnote for Rifampicin / *Staphylococcus epidermidis*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

23 Sulfameth./Trimethoprim

23.1 Sulfameth./Trimethoprim, *Enterobacter cloacae*

phenotype	n
non-wild-type	81
wild-type	118

Caption or footnote for Sulfameth./Trimethoprim / *Enterobacter cloacae*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

23.2 Sulfameth./Trimethoprim, *Escherichia coli*

phenotype	n
non-wild-type	160
wild-type	122

Caption or footnote for Sulfameth./Trimethoprim / *Escherichia coli*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

23.3 Sulfameth./Trimethoprim, *Klebsiella pneumoniae*

phenotype	n
non-wild-type	82
wild-type	143

Caption or footnote for Sulfameth./Trimethoprim / *Klebsiella pneumoniae*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

23.4 Sulfameth./Trimethoprim, *Staphylococcus aureus*

phenotype	n
non-wild-type	9
wild-type	164

Caption or footnote for Sulfameth./Trimethoprim / *Staphylococcus aureus*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

23.5 Sulfameth./Trimethoprim, *Staphylococcus epidermidis*

phenotype	n
non-wild-type	136
wild-type	155

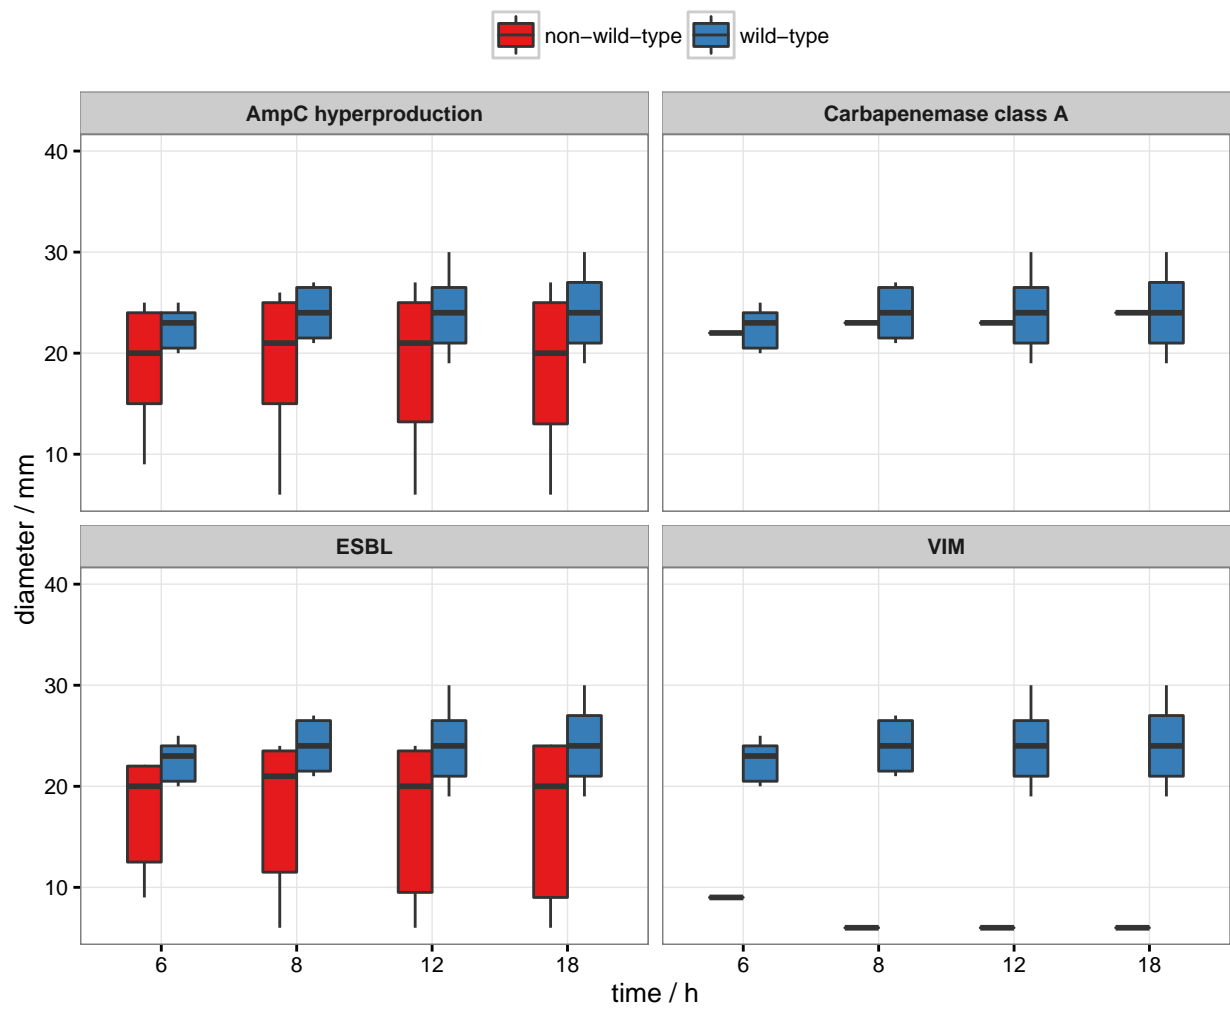

Caption or footnote for Sulfameth./Trimethoprim / *Staphylococcus epidermidis*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

24    Temocillin

24.1    Temocillin, *Enterobacter cloacae*

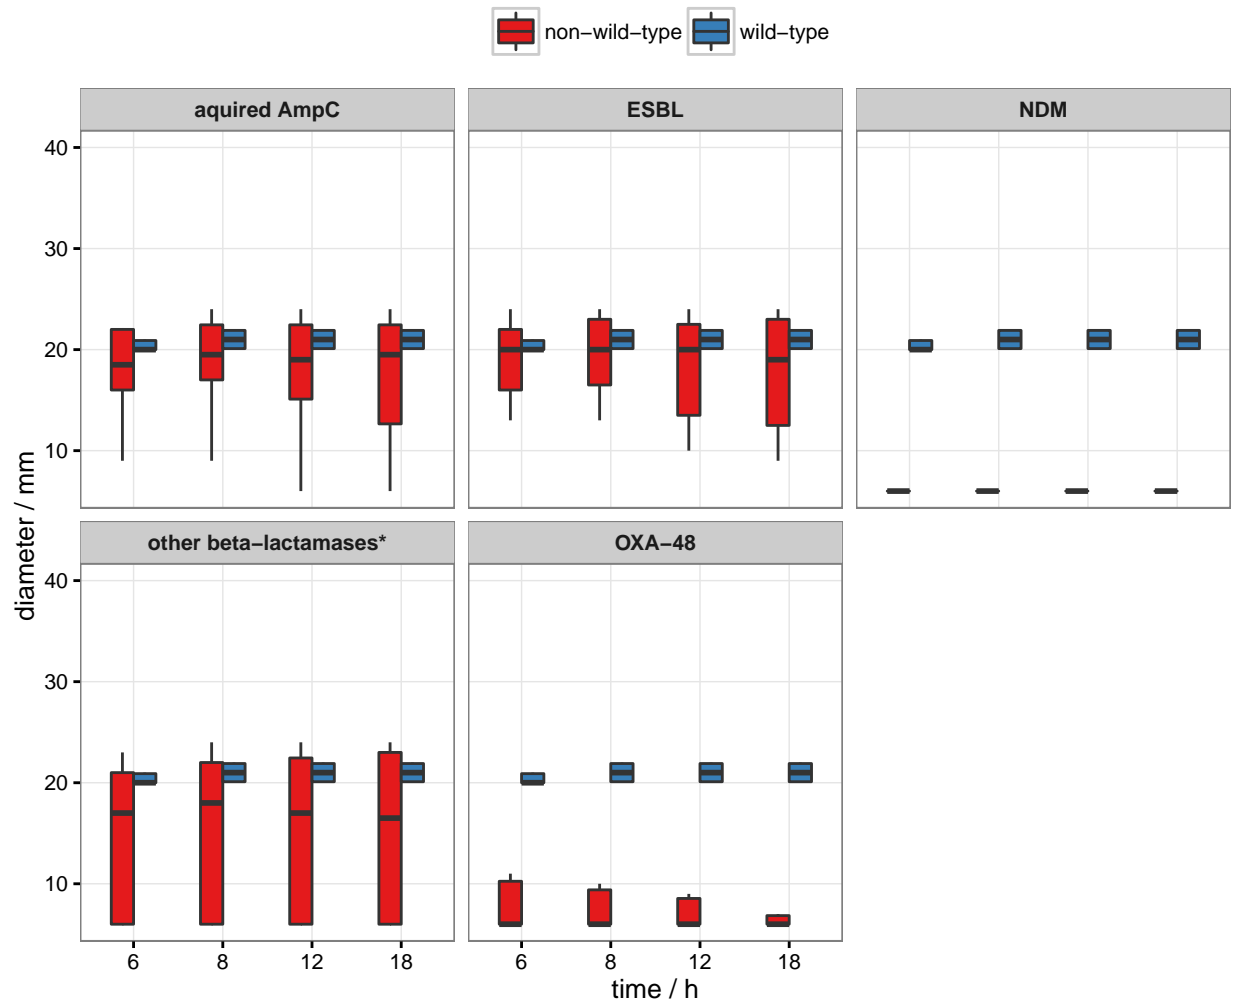

phenotype	n
AmpC hyperproduction	205
Carbapenemase class A	1
ESBL	11
VIM	1
wild-type	51

Caption or footnote for Temocillin / *Enterobacter cloacae*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

24.2 Temocillin, *Escherichia coli*

phenotype	n
acquired AmpC	32
ESBL	91
NDM	1
other beta-lactamases*	52
OXA-48	4
wild-type	3

Caption or footnote for Temocillin / *Escherichia coli*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

24.3 Temocillin, *Klebsiella pneumoniae*

phenotype	n
aquired AmpC	1
ESBL	18
KPC	10
NDM	5
other beta-lactamases*	99
OXA-48	10
VIM	1
wild-type	124

Caption or footnote for Temocillin / *Klebsiella pneumoniae*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

# 25 Tetracycline

## 25.1 Tetracycline, *Enterobacter cloacae*

phenotype	n
Efflux NOT tetB	21
RND pump	49
tetB / tetM	11
wild-type	220

Caption or footnote for Tetracycline / *Enterobacter cloacae*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

25.2 Tetracycline, *Escherichia coli*

phenotype	n
Efflux NOT tetB	145
RND pump	3
tetB / tetM	125
wild-type	202

Caption or footnote for Tetracycline / *Escherichia coli*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

25.3 Tetracycline, *Klebsiella pneumoniae*

phenotype	n
Efflux NOT tetB	31
RND pump	87
tetB / tetM	36
wild-type	222

Caption or footnote for Tetracycline / *Klebsiella pneumoniae*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

25.4 Tetracycline, *Staphylococcus aureus*

phenotype	n
efflux PLUS ribosomal protection	5
non-tetB-efflux	35
wild-type	366

Caption or footnote for Tetracycline / *Staphylococcus aureus*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

25.5 Tetracycline, *Staphylococcus epidermidis*

phenotype	n
efflux PLUS ribosomal protection	3
non-tetB-efflux	59
wild-type	232

Caption or footnote for Tetracycline / *Staphylococcus epidermidis*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

26 Tigecycline

26.1 Tigecycline, *Enterobacter cloacae*

phenotype	n
RND pump	49
wild-type	241

Caption or footnote for Tigecycline / *Enterobacter cloacae*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

26.2 Tigecycline, *Escherichia coli*

phenotype	n
RND pump	3
wild-type	347

Caption or footnote for Tigecycline / *Escherichia coli*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

26.3 Tigecycline, *Klebsiella pneumoniae*

phenotype	n
RND pump	87
wild-type	253

Caption or footnote for Tigecycline / *Klebsiella pneumoniae*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

26.4 Tigecycline, *Staphylococcus aureus*

phenotype	n
wild-type	406

Caption or footnote for Tigecycline / *Staphylococcus aureus*, to be written.

26.5 Tigecycline, *Staphylococcus epidermidis*

phenotype	n
wild-type	294

Caption or footnote for Tigecycline / *Staphylococcus epidermidis*, to be written.

27 Tobramycin

27.1 Tobramycin, *Enterobacter cloacae*

phenotype	n
AAC(2')/AAC(3')-II/-IV	2
ANT(4')/AAC(6')-Ib	6
multiple mechanisms	84
wild-type	207

Caption or footnote for Tobramycin / *Enterobacter cloacae*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

27.2 Tobramycin, *Escherichia coli*

phenotype	n
AAC(2')/AAC(3')-II/-IV	11
ANT(4')/AAC(6')-Ib	49
multiple mechanisms	113
wild-type	300

Caption or footnote for Tobramycin / *Escherichia coli*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

27.3 Tobramycin, *Klebsiella pneumoniae*

phenotype	n
AAC(2')/AAC(3')-II/-IV	3
ANT(4')/AAC(6')-Ib	41
multiple mechanisms	72
wild-type	259

Caption or footnote for Tobramycin / *Klebsiella pneumoniae*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

27.4 Tobramycin, *Staphylococcus aureus*

phenotype	n
ANT(4')/APH(3')	21
multiple mechanisms	12
wild-type	372

Caption or footnote for Tobramycin / *Staphylococcus aureus*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.

27.5 Tobramycin, *Staphylococcus epidermidis*

phenotype	n
ANT(4')/APH(3')	10
multiple mechanisms	148
wild-type	117

Caption or footnote for Tobramycin / *Staphylococcus epidermidis*, to be written. Boxes range from the 5th to the 95th percentiles, whiskers cover the whole range of the data, and thick lines indicate medians.
